

# “Taking Safety Seriously”

Shannon Harrop, tarpARMOR

Dusty Zeigler, Humdinger Equipment, TANA

David Schweitzer, River City Hydraulics

Moderator: Amberlyn Liles

MS SWANA Safety Ambassador

Superintendent of Environmental Services, City of Oxford, Mississippi

What are the biggest safety mistakes you see in our industry, what could we be doing to make it safer?

What do you see as the biggest safety obstacle in the collection of residential waste? How can we be safer?

How have you seen  
operators avoid  
safety and seen  
financial  
consequences?

Besides PPE, what important tools do you recommend for keeping employees and the public safe?

How can FEL drivers avoid accidents?

The background features abstract, overlapping geometric shapes in various shades of green, ranging from light lime to dark forest green. These shapes are primarily located on the right side of the slide, creating a modern, layered effect. The text is positioned on the left side of the slide, set against a plain white background.

What are the key rules for  
landfill safety?

What to do,  
what not to do?

Any advice for a municipality to run rear load garbage collection safely if automated collection does not meet their budgeting abilities?

How have you seen operators overlook precautions? How could it have been prevented?

How important is a pre-trip inspection on trucks, how can it be unsafe if not performed?

What should operators at landfills be doing to their equipment daily to keep themselves safe?

What do you see as the biggest safety obstacle in the collection of commercial waste? How can we be safer?

How have you seen  
operators avoid  
safety and seen  
financial  
consequences?

What tools do  
you recommend  
for the safest  
day on the job?

What can we do to  
get our industry out  
of the Top 10  
deadliest occupation  
category?
